React, Angular, Flask, Lit

Git, Gerrit, Bitbucket, Webpack, Vite, MobX, RxJS, Docker, Google Tag Manager, Jira, Asana, Google App Engine, CMS, Core Web Vitals, Swagger, Postman, Figma

WORK EXPERIENCE

Front-End Developer

Confidential - Freelance | Apr 2023 - Feb 2024

- Development of SPAs using React 18, React Router, Vite and GSAP 3.

Technical Lead @ Google

Media.Monks | June 2022 - March 2023

- Spearheaded technology initiatives, contributing to the development of high-quality, accessible (WCAG 2.1 AA) and high-performant software products.
- Optimized processes, resulting in a 25% increase in productivity and a 15% reduction in project deadlines in six months.
- Collaborated with other marketing agencies working with the client in the coordination of pull requests into shared code bases, carrying out extensive regression testing and reviews of HTML, CSS/SCSS and JS/TS code to ensure compliance with Google's style guides.
- Led a team of 4 people, providing technical feedback and organizing their tasks based on seniority, specialty and personal objectives.

Senior Software Engineer/Release Manager @ Google

R/GA | Mar 2020 - Jun 2022

- Added new sections and functionalities to over 50 statically-rendered websites using JavaScript, TypeScript, Flask, and a custom CMS.
- Contributed to the development and maintenance of features of a framework-agnostic library of reusable UI components based on Google's Marketing Web Standards, which reduced our development times by 50%.
- Participated in the content engineering of various projects, also managing the localization (l10n) and internationalization (i18n) processes in close collaboration with producers, clients and translation vendors.
- Performed code reviews for both internal and external teams, including temporary contractors located at other marketing agencies.

Front-End Developer

Government of the City of Buenos Aires | Nov 2018 - Feb 2020

- Collaborated with a multidisciplinary team made up of web developers, analysts, graphic designers and user experience designers within the General Directorate of Document Management (DGGEDOC) of the Secretariat of Innovation and Digital Transformation (SECITD).
- Contributed to the digitalization of all administrative procedures and government communications through the development of the Electronic Document Management System (SADE), commissioned by the Executive Branch of the City Government.
- Successfully deployed the first module of the platform, Single Desktop (EU), which became a tool of daily use for more than 35,000 users.
- Worked towards the integration of the Location of Works and Services (LOyS) module, following the requirements of the Ministry of Finance and the Subsecretariat of Human Resources Management.

COURSES/ TRAINING

Introduction to Cybersecurity: Cisco Networking Academy, 2024
React and TypeScript - The Practical Guide: Maximilian Schwarzmüller, 2023
Building a Resilient Web: Morten Rand-Hendriksen, 2022
Web Development and Accessibility Best Practices: Morten Rand-Hendriksen, 2022
Web Components and Modularization: Morten Rand-Hendriksen, 2022
Arquitectura de Software - Patrones: Carlos Solís, 2021
Arquitectura de Software - Creación de Sistemas Sustentables: Carlos Solís, 2021
Arquitectura de Software - Diseño de Sistemas: Carlos Solís, 2021
Mastering React: Mosh Hamedani, 2020
The Flask Mega-Tutorial: Miguel Grinberg, Udemy, 2020
Full-Stack Open 2019: University of Helsinki, 2019
Angular De Cero a Experto: Fernando Herrera, Udemy, 2019
Front-End Development: freeCodeCamp, 2018
The Web Developer Bootcamp: Colt Steele, Udemy, 2018
Full-Stack Web Development: Mark Price, Udemy, 2018
MTA Networking Fundamentals: EXO Training Center, 2017
MTA Security Fundamentals: EXO Training Center, 2017
MTA Server Admin. Fundamentals: EXO Training Center, 2017
